

## AN UPLIFTING EXPERIENCE

More than 250 friends, supporters and sponsors came together recently for the Port Chester Carver Center's "When All Boats Rise" benefit, which was held at the Mamaroneck Beach & Yacht Club. Guests dined, danced and raised their paddles to build brighter futures for the Port Chester community. Proceeds from this event went to support several programs, such as the Carver Market food pantry; after-school programs that give homework support and access to enrichment opportunities to Port Chester children; and citizenship classes to new immigrants. For more than 75 years, the Carver Center has been committed to serving, educating and empowering families in our community.

## MATCHMAKING

Recently, seniors at New York Medical College (NYMC) School of Medicine (SOM), along with graduating medical students across the nation, found out where they were matched to medical residency programs. Conducted annually by the National Residency Matching Program (NRMP), the match uses a computer algorithm to match the preferences of applicants with the preferences of residency programs, in order to fill the available training positions at U.S. teaching hospitals. This year, NYMC medical students were matched at all of NYMC's major local partner hospitals, including Westchester Medical Center, Greenwich Hospital and Stamford Hospital.
